DEPARTMENT OF TRANSPORTATION
OFFICE OF THE SECRETARY
WASHINGTON, DC**

Served: April 24, 1996

U.S.-Brazil All-Cargo Charter Pool

NOTICE

By Orders 95-6-18 and 95-6-35 the Department allocated the 450 U.S.-Brazil all-cargo charters to nine carriers and reserved 20 charters in a pool for distribution on an *ad hoc* basis. The allocations were subject to forfeiture requirements if a certain number of flights were not used. By Notice served February 21, 1996, the Department notified all carriers of the forfeitures for this charter year, and 46 flights were made available as a result of these forfeitures. All flights from the charter pool have recently been distributed.

By letter dated March 29, 1996, we requested U.S. carriers to confirm operation of the remaining number of U.S.-Brazil all-cargo charters allocated to them for the 1995/1996 charter year. Flights not committed by firm contracts were to be returned to the charter pool and made available for carriers that had firm plans to use them.

Sixty charters have been returned to the Department for distribution as a result of the U.S. carriers' response to our March 29 letter. Any U.S. carrier interested in using the available charters should apply to the U.S. Air Carrier Licensing Division, Room 6412, 400 Seventh Street, SW, Washington, DC 20590. Flights allocated from the charter pool are subject to the conditions and procedures set forth in ordering paragraphs 3(a) through (e) of Order 95-6-35. Waiver requests of the four flights per month limit will be considered on a case-by-case basis, depending on the circumstances presented at the time.
